Projects

CUI Internship Hub

<https://intemship-hub-frontend.vercel.app/>

A full-stack MERN platform designed to connect students with software houses for internship opportunities. Features include student and company registration, internship postings, application tracking, task assignment, chat system, real-time progress updates, and automated internship completion certificates. Implemented secure authentication, responsive UI, and role-based dashboards for Admin, Students, and Software Houses.

Personal Portfolio

https://maryamakbar123.github.io/Personal_Portfolio/

Built a responsive personal portfolio using HTML, CSS, JavaScript to showcase projects, skills and contact information. Implemented smooth navigation, engaging layout and custom style for professional online presence.
